## Update to v2.0

1 UI Updates

I want to update to a lighter interface for v2, simple changes to the UI.

I have a small gradient for the Coffee & Espresso Screens.

**1b** Font-Family Updates

I also want to update to the Font Family: Rubik

2 Tab Formation

When a user selects a tab on the left, they will be able to input the value in the custom number pad below.

3 Swipe Right/Left

I want to change the screen type by swiping left on the coffee screen to get to the espresso screen

And swiping right on the espresso screen to get to the coffee screen

Interaction included.

4 Save Recipe Page

For this page I jsut want the fonts updated & a small

**Input for Notes**
